Time Zone: UTC +5:00 **Ph#:** (+92)-3030919982

EDUCATION

Comsats University, Islamabad Lahore, PB
Bachelor of Science, Computer Science July 2023
IEEE-CUI IAS Media Director
Relevant Coursework: Web Technologies, Databases, Computer Networks, Mobile App Dev, Object Oriented Programming.

SKILLS

Languages: TypeScript, JavaScript, HTML, CSS, Python, SQL, C#, Shell
Frameworks & Tools: .NET (Core & Framework), WebForms, xUnit, Azure, Docker, React, SQL Server
Concepts: APIs (REST, GraphQL), Agile Methodologies (Scrum, Kanban), Test Driven Development, DBMS, CI/CD

EXPERIENCE

Devsinc | *Software Engineer- I* March 2024 — Present
Multi-Tenant Activity Management System (COPPA Standardized)

- Fixed defects and contributed to the migration of the application from MVC to React by implementing RESTful APIs for the existing MVC pages, to be consumed by React. This allowed particular clients to view different UI based on package feature flags.
- Pioneered the implementation of custom subscription model including prorated billing subscription for tenants, resulting in a **27%** increase in revenue as users were more inclined to register with flexible payment options.
- Developed and executed **200+** unit tests using xUnit, contributing to reduction in post-release issues.

Technologies/Tools: .NET Framework MVC, Razor Pages, React, SQL Server, Stripe API, xUnit.

Associate Software Engineer March 2023 — Present
Healthcare Data exchange platform (HIPAA Compliant)

- Contributed to cloud side of application including the development of Azure Functions with HTTP Request triggers and CRON scheduled jobs, performing ETL tasks with Azure Data Factory.
- Fixed bugs and migrated analytics from **UA** to **GA4**, contributing to better visualization of analytics and actionable insights.
- Worked on the implementation of end-to-end tax compliance module for purchasing courses from in-platform catalog using Avalara API for accurate tax deductions and transactions per state for US and Canadian addresses.

Technologies/Tools: .NET Core, SQL Server, Azure Functions, Avalara API, VB.NET, Redis.

Techlogix | *Software Developer Intern* Jul 2022 — Sep 2022
Campus On Cloud (COC), Almusnet

- Worked in a team of **3** interns to revamp COC, by fixing defects and participating in various Scrum ceremonies including sprint planning, daily standups, retrospectives, and backlog refinement.
- Worked on the development of multiple modules including approval workflow, online admission fee payments.
- Accomplished user review rating of **93%** positive feedback from custom survey solution.

Technologies/Tools: C#, .NET, LINQ, Entity Framework (EF) Core, SSMS.

NexusBerry | *Javascript Developer Intern* Jul 2021 — Sep 2021

- Worked on enhancement of a web app for catering company. Learned about CI/CD pipeline, containerization and feature flagging.

PROJECTS

ARTficial (GitHub)

- Worked under the supervision of Dr. M. Aksam Iftikhar for extension of the original Neural Style Transfer algorithm for correction of synthetic look of images by proposing changes for Gram matrix alteration, style loss modification and more.
- Developed a 3-tier architecture application as a social platform where users can stylize their images using the model.

Technologies/Tools: React, Chakra UI, AWS EC2, Flask, Express, Node, OpenAI API, MongoDB, Cloudinary.

AWARDS & ACHIEVEMENTS

- **Interns.pk Trainee Program** | Securing top **20%** in the national leaderboards of August batch. Aug 2021 —Sep 2021
- **Backend Development and APIs** | Certification March 2022 —April 2022
- **SOFTEC'22 Hackathon** | Represented CUI at Pakistan's largest hackathon March 2022
